A) The holding is NOT under movement restriction for bovine Tuberculosis (TB)*

OR

B) The holding IS under movement restriction for bovine Tuberculosis (TB)*

If the answer to 'B' is yes does this holding have a General Movement Licence?

<input type="checkbox"/>
<input type="checkbox"/>
<input type="checkbox"/>

Please tick the appropriate box.

- Cattle on the holding are not under movement restrictions for other animal disease or public health reasons (excluding 6 day standstill)
- I declare that this batch of cattle sold to Woodhead Brothers have resided on a Farm Assured holding for 90 days, but have resided on the above holding for a minimum of 21 days
- Withdrawal periods have been observed for all veterinary medicines and other treatments administered to the animals while on this holding and previous holdings.
- To the best of my knowledge the animals are not suffering from any disease or condition that may affect the safety of the meat derived from them.
- No analysis of samples taken from the animals on the holding or other samples has shown that the animals in this consignment may have been exposed to any disease or condition that may affect the safety of the meat or to substances likely to result in residues in the meat.
- To the best of my knowledge the livestock supplied are not cloned animals or the first generation offspring of cloned animals. Please be aware that "it is illegal to transport an animal that is considered unfit for travel. This includes heavily pregnant females." This is primarily your responsibility as a producer, but can result in you or your haulier losing their licence to transport livestock. If you think a cow may be in calf, please contact your vet for a PD.

I, the undersigned, have read the FCI statements above and I declare that all animals in this consignment satisfy its conditions.

If the animals do not fulfil all the above statements, tick this box and provide additional information on an attached document.

☐

All animals delivered have the ear tags listed below / on attached list

1. All animals comply with the Woodhead Brothers Hygiene Specification for Clean Livestock and have been kept a minimum of 21 days on the holding stated in the FCI.
2. Passports must correspond with the ear tags on the animals presented – failure to match may result in the carcass being rejected.
3. Both ear tags in the animal presented must match – failure to match may result in the carcass being rejected
